PCS UNION ELECTIONS

VOTE IL FOR A PROGRAMME TO REBUILD PCS!

Trade Unions improve the health and safety, pay, terms and conditions of workers. But PCS should do better.

- ⇒ Win fair and equal pay;
- ⇒ Protect the health and safety of members onsite and at home;
- ⇒ End two-tier workforces;
- ⇒ Bring our private sector members back in-house and deliver better sick pay, pension, leave and health and safety outcomes;
- ⇒ Use technology to promote flexible working and greater job opportunities while protecting members from micro-management and overlong working days;
- ⇒ Win a shorter working week and longer holidays;
- ⇒ Rebuild membership levels and workplace density, including private sector members;
- ⇒ Restore the confidence of members in the effectiveness of the national union;
- ⇒ Build a membership controlled PCS that delivers for members.

IL is a real alternative: The ruling faction have failed. The other slate of candidates standing in this election are led by former members of the ruling group who have fallen out of favour.

Vote IL for candidates with a programme to rebuild PCS.
